

## Value Added Product Information Form

The Canandaigua Farmers' Market is intended to connect consumers to local products and support local agriculture. As such, the purpose of this Value Added Product Information sheet is to supply the Application Committee more information when determining if a product meets the market's goals and requirements.

Please supply as much information as possible regarding product ingredient lists on the reverse side of this form. The purpose of this listing is not to reveal proprietary recipe information but to allow the Application Committee to include products at the market which showcase local ingredients.

*If multiple products are extremely similar, generalized ingredient lists can be given. It is not necessary to list every product individually. Please explain classification or grouping system used.*

It is the producer's responsibility to follow all NYS Ag & Market, Health Dept, etc. guidelines. Permits from regulating agencies (or exemption forms) must be attached to this application.

If product is co-packed, please provide name & address of co-packer:

---

Use this space to provide any additional information to the Application Committee not covered above:
